

The 3rd International Conference on Smart Industry, Technology and Environment

October 24-26, 2025, Hammamet - Tunisia

Presentation

The third edition of the international conference on Smart Industry, Technology and Environment "SITE'2025" aims to bring together academicians, researchers, professionals and experts from various fields to share their latest findings, innovations and best practices. It consists of keynotes, oral sessions and poster presentations. SITE'2025 facilitates interdisciplinary collaboration and promotes sustainable development by exploring cutting-edge advancements in various fields. The international scientific committee selects best papers for publication in specialized journals, considering their alignment with the conference's scope. These chosen papers are recommended for publication to guarantee their quality and significance within the research community.

Call for Special Sessions

Coordinators: Jihed ZGHAL (IUT Ville d'Avray, France)
Atef BOULILA (INSAT, Tunisia)

The organizers of the SITE'2025 conference invite researchers to submit proposals for Special Sessions (SS). These sessions offer a platform for experts in specific themes to present their recent findings and engage in scholarly discussions. Accepted SS proposals will be listed on the conference website along with the names of the organizers. All papers submitted to a SS will undergo the standard evaluation process applied to regular papers. A SS will be scheduled in the final program once a minimum of 5 papers have been accepted.

Awards

Best full-papers will be recommended for publication in peer-reviewed, specialized journals relevant to the conference topics. Outstanding paper presented during the conference will be selected by the program committee to receive special award in recognition of its excellence and contribution to the field.
